Call For Outcome Study Proposals

IFCC's Task Force on Outcome Studies in Laboratory Medicine (TF-OSLM) is seeking research proposals for studies evaluating the **impact of laboratory testing on healthcare outcomes**.

Study proposals should seek to evaluate the clinical effectiveness and impact of new and/or commonly available medical laboratory tests and/or laboratory information on patient care outcomes in clinical practice. It is crucial for the proposed study to link the laboratory testing insights to patient management, and improvements/changes in clinical outcomes (see below for details).

If you, in collaboration with your clinical colleagues are interested in applying please [click here](#) for full eligibility criteria and details on how to apply.

All applications are due by: [October 1, 2024]

Don't Miss Your Chance to Demonstrate the Value of Laboratory Medicine!!
